Nov 2020 ISSUE 11

MEETING: 7:00 PM
FIRST MONDAY OF THE MONTH
Center for the Visual Arts

November Virtual Meeting David Hoenig

AAW
AMERICAN ASSOCIATION
OF WOODTURNERS

I began my woodturning prior to my retirement when I took a class at Woodcraft from John Horn, as many of you have. Having no experience in turning before this class, I developed a passion for turning. It was some-time before I bought a mini lathe, and all the other tools I thought I would ever need, and began my adventure in turning. It was a slow process reading books, watching videos until I discovered Golden Triangle Wood turners. This was the turning point in my learning process, attending meetings, going to open shops, and utilizing the mentoring program. SWAT was another source of my learning, and tool buying.

Continued on next page.

THE WOODTURNER

David Hoenig Cont.

As I progressed in my turning and learning I was able to take classes with Jimmy Clewes, Trent Bosch, Nick Cook, Janice Levi and others. Each of these classes have different styles and methods of teaching and I tried to pick up a little from each and develop my own style.

My interest in turning ornaments began almost as early as my woodturning adventure began. Every year I try a new ornament type to give to family and friends. The ornament I am turning this year was inspired by several turners, some from watching demonstrations at symposiums as well as other sources. At one point I purchased a book, "Woodturning Christmas Ornaments with Dale Nish". The book offers many designs and a technique Dale used in his ornament turning. This is a good read if you are interested in this type ornament.

The ornament I will turn will be using multiple wood species of contrasting colors. It will consist of a body, a top or roof, a perch and a finial.

I hope you will enjoy this demo, and are inspired to turn one for yourself.

Presidents challenge

Make a wig stand for Cancer patients.

This consists of 3 parts: 1) a 6-8" bowl that is not hollowed out; 2) a 12" spindle; and a base that should also be about 6" in diameter.

Drill a 3/4" mortise in both the bowl and a base and a matching tenon on both ends of the spindle.

Put a poly finish on the project as wax, oil, shellac can cause problems with the wig material.

You can Google "turned wig stands" to get more ideas.

Let's do this for both the November and December meetings. We will make arrangements to pick up your stands and deliver them to a cancer center.

EMPTY BOWLS OF DENTON

To all the amazing woodturners at Golden Triangle Woodturners: Our jaws dropped a little further every time we unwrapped another creation, from bowls and vases to the fabulous cutting board. The variety of woods, textures and finishes invited us to both touch and admire. We are forever grateful that all of you think of us each year with your donations.

Other Golden Triangle Woodturners Club news

Have you ever wanted to help the club progress and don't know what to do? We have a couple of open positions on the board for next year.

Newsletter Person: This person will update the monthly newsletter and attend board meetings. They will mail out notices to the club and be involved with club activities.

Activities Person: This person will organize and interface the club with our activities that we do each year. This would be like our woodturning events Celebrate Roanoke and Arts and Auto's. You will coordinate with making sure we have enough cars and materials ordered for these events.

Please contact one of the board members if you are interested. They can answer any questions you may have. See our board members page in this newsletter for contact information.
