## September Virtual Meeting Dave Landers

**AAW**  
AMERICAN ASSOCIATION  
OF WOODTURNERS

Join the monthly club meeting using Zoom from your computer, tablet, laptop or even your mobile phone. A clickable link will be sent to club members via email.

I am a mostly self-taught, hobbyist Woodturner. I have been turning wood for over 30 years, although my skill level improved dramatically when I joined the AAW and a local club.

My primary medium is turning functional bowls from reclaimed local wood. I also like making hollow-forms and goblets. But mostly I enjoy experimenting with various techniques and forms.

I have the privilege of being able to work in my shop and studio in beautiful Estes Park, Colorado.

## Turn a Forest: Ring-Turned Trees

**1½ hours**

Let's make some ornaments – lots of them! We will use a technique called “Reifendrehen” or “ring turning”. One kind of ring turning (making rings to wear on your fingers) has become popular recently. But that's not what we're doing.

We're doing the other, older style of ring turning: make a large ring (8 to 10" diameter) with the desired profile and slice the ornaments out of the ring. We'll add a step using inside-out turning to create a hollow shape. Using this method, you can quickly make 40 to 50 ornaments at a time. The technique I use is based on an article in the October 2013 issue of American Woodturner.
